

Rosie Hugs' Little Angels

Rose Mary Back aka "*Rosie Hugs*" from Centerville, Ohio Rosie Hug clowns at Children's Medical Center, Nursing homes and sponsored activities (as walks for cancer and wellness clinics from Kettering Medical Center). She hangs these easy to make angels on a colorful card with appropriate little verses and gives to patients.

The bead is an imitation pearl, strong string is silver thread (both available in craft departments). The paper clip is metallic available at office supply stores. The clip is just tied as you see and the bead slipped on. So simple, but so meaningful to someone alone who needs a guardian angel. Angels are one of the nondenominational cross-cultural images we can all use. And who doesn't want a little angel to look after them? The one Rosie Hugs sent me is taped onto my computer.
